

BILL 60 PASSING MEANS MORE EVICTIONS

ONTARIO NEEDS A RENT GRANT

"The homeless population
could reach 300,000 in the
next decade. I know what I'll do
- speed up evictions in a
housing crisis!"

*-not a direct quote but might as well be
Stat source: Association of Municipalities of Ontario*

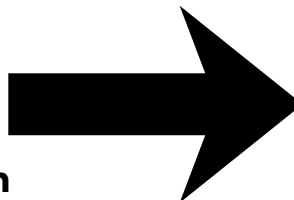

It's cheaper to keep people in their homes.

Bill 60 will result in more evictions leading to homelessness which will cost
everyday taxpayers MORE than if tenants could stay housed.

**ACORN is calling for a provincial RENT GRANT program so tenants stay housed
when they face unexpected emergencies, landlords still get paid and
taxpayers save more.**

CALL PCMPPS

Doug Ford launched an all-out attack on tenants. Conservatives just voted to pass Bill 60, the *"Fighting Delays, Building Faster Act."* The bill speeds up evictions and makes it harder for tenants to defend themselves. **So how can we prevent the tsunami of evictions that's coming?** A provincial rent grant! A rent grant could offer financial support to tenants who fall on hard times – job loss, death in the family, illness etc – that causes them to be short on rent.

**MPP Phone #s
to call!**

Hi, my name's [name] and I live in [your area]. I'm calling because I'm very concerned about the wave of evictions we're going to see now that Bill 60 has passed. To prevent more people from sleeping on the streets, I'm urging you to support ACORN's campaign for a provincial rent grant program for when tenants face unexpected emergencies and fall short on rent. This will make sure landlords get paid, tenants stay housed, and it will cost the everyday taxpayer LESS than more homelessness will. You can call me back at [your number], or reach ACORN at 613-746-5999 ext. 3 or ontario@acorncanada.org.

What's in Bill 60?

- Blocks tenants from raising new issues at eviction hearings
- Cuts appeal time for unfair evictions from 30 days to 15
- Ends compensation for "landlord's own use" evictions with 4 months' notice
- Halves notice for non-payment evictions – from 14 days to 7
- Limits tenants' ability to delay evictions, even in emergencies
- AND MORE!
