

PROTECT OUR HOMES

NATIONAL HOUSING STRATEGY MUST INCLUDE NATIONAL HOUSING STANDARDS

QUICK FACTS:

We are losing affordable rentals faster than we are building them:

- Between 2016–2021, Canada lost 230,000 affordable rental units. That is 46,000/ year.
- Canada's total non market housing stock (3.5%) is shamefully low when compared to other OECD countries (6.9%).

WHAT WE'RE FIGHTING FOR:

ACORN is demanding all federal funding be conditional on provinces meeting national housing standards that protect existing affordable housing. Standards *MUST* include:

- Real rent control, no loopholes (ex.no Above Guideline Increases or AGIs in ON, or ARIs in BC)
- Bans on no-fault, no cause and bad faith evictions.
- End fixed-term lease abuse.
- Secure tenure for all renters.
